INFO.

- 1. There are several factories at Burgas including an old cement plant, a seed-oil mill, and an iron goods factory. Recently a textile mill and an electrical appliance plant have been built. The textile mill is housed in a new building 100 meters long and 50 meters wide; the electrical plant is in a three-story building, 60 by 50 meters. Equipment for the latter was imported from Hungary and Italy.
- 2. In the summer of 1950 the 24 Infantry Regiment stationed at Burgas was enlarged into a division under the command of a general. This division is quartered in the old 24 Regiment barracks and adjacent buildings which were requisitioned to accommodate the increase in personnel.
- 25X1X 3. In 1950 large barracks were built at Sredets. other barracks are being built between Burgas and Sozopol.
- The two principal highways going south from Burgas lead to Sredets and Marinka. A new road, six meters wide, is being built to connect these highways via Skef.*
- 5. At Rosen, about 20 kilometers south east of Burgas, there is an old copper mine which is still being worked. Soviet specialist and science tists are conducting uranium research on the ore; after much sorting and processing small residual samples are sent to Russia for further research.** In October 1950 groups of Soviet specialists and workmen were sent to the Stara Planina mountains for geological survey work.
- 6. The area between Fot (sic), which is near Marinka, and Sozopol has been declared a prohibited zone requiring a special permit.

25X1A 25X1A 25X1A Comment: Paragraph 1 of and paragraph 4 of 25X1A mention this new highway. 25X1A

Comment: Paragraph 2 of also refers to geological research being conducted by the Soviets at the Rosen copper mine.
